CAREER OBJECTIVE

Full stack developer who has built and runs a live e-commerce platform taking real orders. I want to join a product team as a MERN / Next.js developer, ship features end to end from database to UI, and grow into an engineer trusted with scalable, secure systems.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python

Frontend: React, Next.js (App Router), Tailwind CSS, React Hook Form, TanStack Query, Recharts

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, PostgreSQL, Supabase, Firebase Auth, JWT, REST APIs

Tools: Git, GitHub, Vercel, VS Code, Postman, Figma, Chrome DevTools, Claude / Gemini APIs, n8n

Interpersonal: Ownership, problem solving, clear written English, working with non-technical partners

PROFESSIONAL EXPERIENCE

Co-Founder & CTO, Skinmax BD (skinmaxbd.com) Jul 2026 – Present

- Designed, built and deployed the full skincare e-commerce platform with Next.js, TypeScript and PostgreSQL (Supabase) on Vercel; real customer orders since Oct 2026.
- Built SMS one-time-password login, cash-on-delivery checkout, a skin-quiz recommender and a Gemini-powered shopping assistant.
- Built the admin back office: orders, courier booking via 3 courier APIs, invoices, finance and visitor insights.
- Cut page load from ~800 ms to under 100 ms for cached pages by moving to a Mumbai region and adding a safe edge cache.

Founder & Developer, Quantmax Automation 2025 – Present

- Build AI chatbots, n8n workflows and LLM integrations for small businesses; built the studio's Next.js 15 website.

PROJECTS

Glowra – Skincare Marketplace Live | Client | Server

Full-stack marketplace where users explore, buy and review skincare products and admins manage the store from a dashboard.

- JWT authentication with bcrypt hashing and role-based access for users and admins.
- Explore page with search, category and price filters, sorting and server-side pagination.
- Role-based dashboards with live bar, line and pie charts and sortable data tables.
- Light and dark mode; fully responsive. *Tech: Next.js, Tailwind CSS, Express, MongoDB, Recharts.*

Dhaka Pulse Live | GitHub

Event discovery app for Dhaka where anyone can browse live music, meetups and food walks, and signed-in users add and manage their own events.

- Firebase email/password and Google login with protected pages that redirect to login.
- Items page with search and two filters, dynamic detail pages and related items.
- Add and manage items with validation and toast confirmations. *Tech: Next.js App Router, Firebase, Tailwind CSS.*

EDUCATION

North South University, Dhaka 2023 – 2025

Undergraduate coursework in Computer Science & Engineering (no degree; left in 2025 to build Skinmax full time).

LANGUAGES

Bangla: Native | English: Professional (IELTS Academic 7.5)
